VETERINARY RADIOLOGY
VET-TECH 300HF

GER HIGH FREQUENCY GENERATOR 30 KW

French innovation and experience for your imagery

QUALITY FRENCH MANUFACTURING :

- Top of the range manufacturing for better reliability
- Quality recognized with the NFC 74 100 standard
- High quality after sales care

ADVANCE YOUR RADIOLOGY!

- Automatic regulation of constants (kV and mA)
- Easy installation (standard 230V power supply)
- Instant X-Ray trigger pedal (for thoracic radios)
- Radioprotection facilitated with shot history by operators
- Positioning aid of the animal

Made in France registered by ASN

VET-TECH 300HF

THE VET-TECH CONCEPT LAUNCHED BY GER

is the result of an approach to radiology combining precision, reliability and simplicity for veterinarians

DIMENSIONS (mm)

TECHNICAL SPECIFICATIONS: X-RAY GENERATOR GER 300HF

Power	30kW
Anode	Rotating
Filaments size	0.6/1.3mm
Electrical mains supply	230V 16A (3kW)
Max anodic current (mA)	425mA
mA range, increm.of 25	25 à 300
kV range, increm.of 1KV	40 à 120
Automatic menu	2310 cases

Manual & Personal menu	Yes
Last case menu	Yes
Anatomic Menu and positioning assistance	66 incidences
Numeric constants	Yes
collimator	R302
Grid 35x43 cm 40 LPM	Yes
Operator shots history	Yes
Table weight	250kg
